DETAILED ACTION

Status of Claims

Applicant's has canceled claims 43-78 in the paper filed 11/18/2003. Nonelected claims 37-42 and 72-92 have been withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention. Claims 1-36 are currently pending.

This application is in condition for allowance except for the presence of claims 37-42 and 72-92 drawn to a process, non-elected without traverse. Accordingly, claims 37-42 and 72-92 been cancelled.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Cancel claims 37-42 and 72-92.

Allowable Subject Matter

Claims 1-36 are allowed.

The following is an examiner's statement of reasons for allowance: The reference fails to teach an absorption solution for refrigeration systems comprises at least one heteropoly complex anion of transition element and either aqueous ammonia. In fact, the reference teaches away from the use of ammonia (col. 2, lines 16 and 17). Therefore it would not have been obvious to one of ordinary skill in the art at the time the invention was made to create the instantly claimed absorption solution for refrigeration systems comprises at least one heteropoly complex anion of transition element and either aqueous ammonia which inhibits corrosion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
